MOVE TO THE VILLAGE

Engineering excellence meets elegant design in the Vynco Village range.

With its extra large, easy to identify switch and specially designed easy to use rocker, the Village range is perfect for people with reduced or impaired visual and motor skills, or when it suits a design brief. Designed to match the Metro range's clean lines and elegant curves, Village also makes it easy to create a cohesive interior aesthetic without having to sacrifice functionality.

The Vynco Village range is proudly researched and designed right here in New Zealand by Vynco's in-house R&D team.
