

# MDSN Metal dowel fastening nail

## Areas of application

The patented mounting solution for the functional integrity. Fire proof plug-in dowel for the fixing of electrical installations according to DIN 4102-12. No tools needed!

## Installation guide:

- Drill a 6 mm Ø hole
- Put the MDSN through a hole of the item to be fixed and push it into the drill-hole
- Fasten "at the push of a thumb"

## Product details:

Nail length in mm	Type	Content pcs/pack	Article number
36	MDSN	100	9002

## Product benefits/properties:

- 60 % saving on current fix times
- Made from stainless steel
- fire resistance tested up to 120 min

Utilising the special design of the expansion element when under tension, the fastening elements are securely retained in place and will thus withstand any working load seen in normal conditions.

For the assembly no anchor and no screw is necessary. Fire proof plug-in dowel for the fixing of electrical installations.

## Technical data:

Material	Stainless steel W-No.: 1.4310 Material thickness: 0.3 mm
Weight per piece	1.4 g
Maximum load	F30: 89 N, F60: 69 N, F90: 46 N, F120: 36 N
EAN code	9008439-090020

Fire proof plug-in dowel for the fixing of electrical installations. No tools needed!
